No. 1—September

PAGE

RILEY, P. A., and P. SEAL. The role of substitute anisoles in epidermal micro-invasion (Plates I and II) 1

BANERJEE A. K., and V. K. KAK. Pineoblastoma with spontaneous intra and extracranial metastasis (Plates III and IV) 9

SUN C. N., and J. WHITE. An electron-microscopic study of a schwannoma with special reference to banded structures and peculiar membranous multiple-chambered spheroids (Plates V–X) 13

HARRIS, C. C., D. G. KAUFMAN, F. JACKSON, J. M. SMITH, P. DEDICK and U. SAFFIOTTI. Atypical cilia in the tracheobronchial epithelium of the hamster during respiratory carcinogenesis (Plates XI and XII) 17

WILSON, PATRICIA D. Enzyme patterns in non-neoplastic and spontaneously transformed tissue culture cells: a histochemical and biochemical study (Plates XIII–XV) 21

HARRISON, J. D. Cystic adenoma of a minor salivary gland: a histochemical study (Plates XVI and XVII) 29

YANTORNO, CARLOS, CLELIA M. RIERA and MARIA G. FAILLACI. Immunopathological studies on cryoimmunisation of the rabbit male accessory glands (Plates XVIII and XIX) 39

TOKER, CYRIL. Small cell dysplasia and in-situ carcinoma of the mammary ducts and lobules (Plates XX–XXIV) 47

MOENANDAR, I. M. Extensive calcification in the stroma of a primary hepatic carcinoma (Plates XXV and XVI) 53

No. 2—October

SMITH, PAUL, DONALD HEATH and J. M. KAY. The pathogenesis and structure of paraquat induced pulmonary fibrosis in rats (Plates XXVII–XXXV) . . 57

LARSEN, T. E., and F. N. GHADIALLY. Cilia in lupus nephritis (Plates XXXVI–XXXIX) 69

PAPADIMITRIOU, J. M., and PATRICIA A. WYCHE. An examination of murine foreign body giant cells using cytochemical techniques and thin layer chromatography (Plates XL–XLIII) 75

WOOD, P., and I. CARR. The quantitation of experimental lymph node metastasis . 85

CAMERON, H. M., H. HAMPERL and W. WARAMBO. Leiomyosarcoma of the breast originating from myothelium (myoepithelium) (Plates XLIV–XLVII) . 89

ADDY, M., and A. E. DOLBY. The early changes in the Arthus reaction in the rabbit oral mucosa (Plates XLVIII and XLIX) 93

KAHN, PAULINE, and T. SCOTT. The pathology of a radial nerve biopsy in leprosy: light and electron microscopy (Plates L–LIV) 97

PAGE

WARREN, JUDITH, and G. GOWLAND. Cell transfer studies on the persistence of homograft sensitivity in the mouse: *in vitro* and *on vivo* correlates of the activity of sensitised lymph node cells 101

No. 3—November

GHADIALLY, F. N., and L. F. SKINNER. Giant mitochondria in erythroleukaemia (Plates LV and LVI) 113

GUDE, WILLIAM D., T. T. ODELL, JR, G. E. COSGROVE, C. W. JACKSON and JEAN PRATSCHNER. Changes in the pancreas in thrombocytopaenic rats (Plates LVII and LVIII) 119

TAM, C. S., R. REED, A. H. LITTLE and B. CRUIKSHANK. Bone growth kinetics III. A biorhythm in bone growth in the rabbit (Plate LIX) 127

AHMED, ALI. The myoepithelium in human breast fibroadenoma (Plates LX–LXIX). 135

GOLDBY, F. S., and L. J. BEILIN. The evolution and healing of arteriolar damage in renal-clip hypertension in the rat. An electron microscope study (Plates LXX–LXXIV) 139

WILLIAMS, G., and M. HUGHES. Post-partum renal failure (Plates LXXV–LXXVIII) 149

WINSTANLEY, E. W. Changes in epithelial thickness during the healing of excised full-thickness skin wounds (Plates LXXIX–LXXXII) 155

SILLER, W. G., and R. B. CUMMING, The histopathology of an interstitial nephritis in the fowl produced experimentally with infectious bronchitis virus (Plates LXXXIII–LXXXVIII) 163

BOOKS RECEIVED 175

No. 4—December

SMITH, P., and D. HEATH. The ultrastructure and time sequence of the early stages of paraquat lung in rats (Plates LXXXIX–XCIV) 177

RISDON, R. ANTHONY. Quantitation of histological changes in the glomeruli in renal biopsy specimens from children: total and differential glomerular cell counts (Plate XCV) 185

JOLLY, R. D. Congenital brain oedema of Hereford calves (Plates XCVI–C) . . 199

DAVIES, J. DOUGLAS. Pigmented periductal cells (ochrocytes) in mammary dysplasias: their nature and significance (Plates CI–CIV) 205

WALTON, K. W., and DENISE J. DUNKERLEY. Studies on the pathogenesis of corneal arcus formation II. Immunofluorescent studies on lipid deposition in the eye of the lipid-fed rabbit (Plates CV–CXI) 217

MACKENZIE, D. H. Clear cell sarcoma of tendon and aponeuroses with melanin production (Plates CXII–CXIV) 231

VIJEYARATNAM, G. S., and B. CORRIN. Fine structural alterations in the lungs of iprindole-treated rats (Plates CXV–CXVIIII) 233

HALL, G. A., and I. M. REID. The effects of hexachlorophane on the nervous system of sheep (Plate CXIX) 241
